

# NetShelter® CX

## Solutions for Retail

*A soundproofed server room in a box which allows for IT deployment wherever and whenever it is needed, saving space, cost and deployment time.*

### How NetShelter® CX Helps:

- CX allows IT deployment even when there isn't a server closet
- Preinstalled solutions can be rolled into place and powered on
- All branches are not the same – CX comes in 3 different sizes
- Attractive wood finish means IT gear won't look out of place
- Redecorating? CX keeps your IT gear mobile allowing supreme flexibility.

### Specific Applications:

- **Furniture Store with multiple POS**
  - CX looks like it might be for sale? – aesthetically pleasing way of housing your IT equipment
  - Store layout is always changing, keep your servers/POS mobile like the rest of the furniture
  - Network rollouts in large stores need IDF drops, why build a closet for your switches?
- **Bank Branch in historic building**
  - No network closet in the 200 year old building? Deploy a CX where you want it.
  - The CX will keep your gear behind closed doors even out in the open
- **Multi-store upgrade or rollout**
  - CX allows pre-configuration/installation to make deployment fast and easy
  - Standard solution with multiple sizes keeps deployments the right size for the branch
