

NetShelter CX High Security Handle Adapter Kit

What is the NetShelter CX?

The NetShelter CX is a soundproofed server room in a box which allows for IT deployment wherever and whenever it is needed, saving space, cost and deployment time.

What is the Handle Adapter Kit?

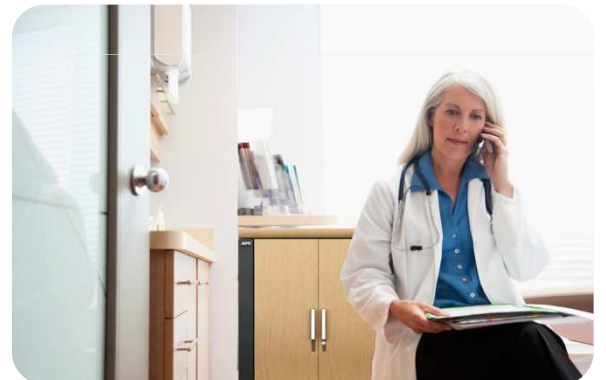

This kit allows the standard office handles and front door lock of the NetShelter CX to be replaced with other APC Rack Access Handles. These include the HID Proximity Card Handle, the Codelock Handle and the standard APC Rack Handle all of which are typically found on the NetShelter SX range of Data Centre and Server Room racks.

Who needs it?

Customers placing IT in locations where security, access control, compliance or tracking are needed. Common applications are found in :

- **Healthcare** - Surgeries & Laboratories
- **Public Sector** - Government Offices
- **Education** - University Departments & Classrooms
- **Finance** - Bank Branches, Insurance Brokers, Trading Floors, Solicitors Offices etc.

What are the benefits of using this solution?

- Remote and local access control of critical network hardware
- Peace of mind IT installation in remote sites
- Standardise access control across infrastructure and sites
- Manageable from anywhere on the Network

How does it work?

The kit consists of door brackets which replace the originally installed handles on a NetShelter CX. It is compatible with all generations of NetShelter CX 18U, 24U & 38U. This Kit can be retro-fitted to any NetShelter CX already in the field, or to new units. Fitting is quick and easy. This adapter works with the following APC handles and rack access products:

- Combination Lock Handles , APC Model Number AR8132A
- NetBotz Rack Access PX-HID, APC Model Number AP9361
